REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: None of the references of record, teach or suggest a magnetic recording tape having all specific properties as claimed. The most pertinent reference is the Sueki reference (US 6,228,461) which teaches the same ranges of thermal expansion coefficient, offset yield strength, rupture (breaking) strength as claimed; however the Sueki reference fails to teach the surface roughness on the two sides of the support and the numbers of projections of 273 nm height of the magnetic layer. As shown in the specification, especially in comparative examples 4 and 7, if one of the properties recited in the instant claim 1 falls outside the claimed range, the magnetic tape results in poor output and running properties. In comparative example 4, all claimed properties, except the projections on the magnetic layer, of the magnetic tape are met, the resulting magnetic tape has high number of errors. In comparative example 7, every property, except the roughness of the support, of the magnetic tape is met, the resulting magnetic tape exhibits high output fluctuation and poor running property.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to H. T. Le whose telephone number is 571-272-1511. The examiner can normally be reached on 10:00 a.m. to 6:30 p.m., Mondays to Friday.
